

Rossön's fishing area gives you 180 km of shoreline

Rossöarea provides excellent fishing opportunities in a large water system with varying characteristics. Here you will find everything from flowing water at Harahällarna to peaceful lakes and ponds such as Vallsjön and Volmvattnet. Summertime offers a rich selection of good trout, pike and perch fishing. In late winter, the area is popular for its excellent ice fishing for char and large perch. We have selected some fishing grounds we believe, that you as anglers, will appreciate. We will be happy to customize a fishing vacation to you.

Fishing areas

The fishing area is situated along the river Fjällsjöälven and connects lake Bodumssjön with an archipelago-like setting of islands, islets and coves surrounding the small town Rossön with over 180 km of shoreline. Lake Bodumssjön offers varied and exciting fishing during the summer time. Within the fishing area are numerous lakes to explore. The more popular lakes for our fishing guests are Storflyn, Lessjön, Degervattnet and Volmvattnet. Fine catches of pike and perch are to be had year round. For trout and char fishing we recommend the lakes of Vallsjön, Bolltjärn, Byvattnet and Nagsjön.

Fish species

Pike and perch are the area's most common fish species. Rossöbygden borders the mountains and there are also fishing grounds of native trout and char. Other species within the

fishing area are whitefish, grayling, burbot, roach, ide, bream and bleak.
Pike: normal weight 1-5 kg – max. 10 kg
Perch: normal weight 0-1 kg – max. 2 kg
Trout: normal weight 0-2 kg – max. 8 kg
Char: normal weight 0-1 kg – max. 2 kg
Grayling: normal weight 0-1 kg – max. 1 kg.

Fishing season

Fishing for pike is best during the month of June especially the weeks around midsummer. Even autumn can produce some large pike. Perch bite best during the period of July – September. Trout fishing reaches its peak in June, particularly around midsummer when

the lake flies hatch. Ice fishing season starts in December and runs through mid-April. Pike and perch are the best caught during March-April, while char can be fished throughout the winter.

– welcome*

Great accommodation

Fishing methods

For pike and perch during the summer poppers, wobblers, spinners and jigs can be used. Small wobblers are always good when it comes to catching big perch. For ice fishing in the winter you can use everything from attractor hooks to marmooska lures. If you are looking to ice fish for pike then the traditional *angel-donsfiske* gives good results.

Fishing regulations

In flowing water fishing is prohibited between September-May. In general, refer to current information on your fishing license for each location.

Boats and tackle

For our guests, we have five plastic boats in various sizes for hire. Boat motor and life jackets are included in the price. Sport fishing gear can be bought in the local fishing shop.

Logi

ABOR Motel & Lizas Kök offers 2-4 bedrooms with shared toilets and showers. The motel is located on Lake Bodumssjön within the Rossön area.

Härbret is located at Rossöns GKS golf facility in the village of Näset by the small river of Näset. Härbret has nine beds and is divided into two separate rooms with kitchenette and a loft with stove and television. There is a service building with kitchen, toilet and shower. In that

service building, on the first floor are five beds.

Stugan Björken on the shores of lake Vallsjön has four beds and is equipped a liquefied petroleum gas refrigerator, stove and fireplace. The facility at *Loftstugan* at Byvatt-net is a small cottage with a sleeping loft for up to 4 people. This cottage has a wood stove and gas stove.

Food

ABOR Motell & Lizas Kök serves food seven days a week during the tourist season and offers wine and spirits. During the summer months Rossön Golf Club's restaurant is open, offering a light lunch and has a small variety store.

Other services

In the community of Rossön there are grocery stores, gas stations and a fishing store. In Backe about 10 km away there are restaurants, doctors and pharmacies.

Other activities

Interesting sights include the rock paintings at Harahällarna located at the mouth of the river Nagasjöåns, the nature reserve at Vallsjön with centuries-old pines, hiking trails in the Bollbergs Nature Reserve and the Homestead museum with a Stone Age museum. There is also a nine hole golf course.

Transportation

The most appropriate means of travel to the area is by car. From Östersund it is 160 km. From Sundsvall it is 200 km. If you arrive by air: From Midlanda airport, Sundsvall 180 km. From Åre-Östersund airport 180 km.
